Portfolio/Profile: [upwork.com](https://www.upwork.com)

Professional Summary

Strategic Senior UX/UI Designer with nearly 7 years of professional experience, combining a technical Information and Communication Technology (ICT) background with an MBA mindset. Expert in leading digital transformation projects, specializing in high-impact user experiences for Government, EdTech (LMS), and Real Estate sectors. Top-Rated Plus professional on Upwork with a 100% Job Success Score across 70+ completed jobs, recognized for bridging the gap between complex business requirements and intuitive, user-centric digital products.

Core Competencies & Skills

- **UX Research & Strategy:** User Interviews, Persona Development, Information Architecture (IA), Wireframing, User Journeys, Task Completion Optimization.
- **UI & Interaction Design:** High-Fidelity Prototyping, Responsive Design, Interaction Design, Web & Mobile Interface Design.
- **Specialized Domains:** Government Portals, Learning Management Systems (LMS), SaaS Products, E-commerce, Real Estate Platforms.
- **Design Systems:** Scalable Design Systems, Atomic Design Principles, Reusable UI Components.
- **Soft Skills & Leadership:** Technical Recruitment & Vetting, Mentoring Junior Designers, Cross-Functional Team Collaboration, Project Management, Adaptability, Complex Problem-Solving.

Tools & Technologies

- **UI Design & Prototyping:** Figma, Sketch, Principle
- **Brainstorming & Wireframing:** FigJam, Balsamiq

Professional Experience

Senior UX/UI Designer | HAD For Communications & IT

Oct 2023 – Present | Riyadh, Saudi Arabia (Remote)

- Lead the end-to-end UX/UI design process for high-profile Saudi government web portals, ensuring full compliance with national digital transformation standards and accessibility guidelines.
- Architected and designed comprehensive educational platforms and mobile applications

dedicated to teaching Arabic to non-native speakers, focusing on intuitive user journeys and interactive learning experiences.

- Directed the UX strategy for various service-based applications within the Saudi market, optimizing user flows to enhance engagement and streamline digital service delivery.
- Collaborated cross-functionally with product managers and developers to translate complex business requirements into high-fidelity wireframes, interactive prototypes, and scalable design systems.
- Utilized user research and data-driven insights to iterate on designs, significantly improving task completion rates and overall user satisfaction for public and private sector projects.

Senior UX/UI Designer | Gaza Gateway (Contracted to FamilySearch)

Jun 2022 – Sep 2023 | Utah, USA (Remote)

- Designed and localized digital experiences for the MENA region, focusing on genealogical platforms that help users discover and document their family lineages and historical roots.
- Spearheaded extensive user research and field interviews across the MENA region to capture authentic user requirements, transforming qualitative insights into actionable design strategies for heritage and genealogy platforms.
- Conceptualized complex visual structures for family trees and kinship diagrams, simplifying the representation of intricate ancestral data and historical connections.
- Integrated cultural elements into UI design, creating specialized interfaces for showcasing ancient poetry, tribal history, and regional heritage in a modern and engaging format.

UX/UI Consultant & Mentor | Gaza Gateway

Jan 2023 – Sep 2023 | Gaza, Palestine (Local / Upon Request)

- Acted as a Strategic Design Consultant for outsourced international projects, providing expert recommendations on software solutions and UI/UX best practices for incoming ventures.
- Orchestrated the technical recruitment process for design roles, including conducting portfolio reviews, designing specialized design challenges, and interviewing candidates to ensure high-quality talent acquisition.
- Evaluated and vetted design applicants, providing data-backed recommendations to management for project placements and hiring decisions.
- Identified knowledge gaps within the design team and provided targeted mentorship to enhance technical skills and maintain high delivery standards for international clients.

Mentor, 4-Days UX/UI Bootcamp | GazaSkyGeeks

Aug 2023 | Gaza, Palestine

- Mentored and guided aspiring designers through an intensive 4-day bootcamp, focusing on the fundamentals of user-centered design and industry-standard workflows.
- Provided hands-on technical support in Figma, helping participants transform their ideas into functional wireframes and high-fidelity prototypes.
- Conducted design critique sessions, offering professional feedback on UI layouts, color theory, and user journeys to ensure project quality.
- Facilitated practical workshops on UX research methodologies and the importance of

solving real-world problems through design thinking.

UX/UI Designer (Contract) | Crowdbotics (via Upwork)

Mar 2019 – Mar 2020 | Global (Project-Based Contract)

- Translated complex technical requirements into user-friendly interfaces for a low-code/no-code application development platform, enabling users to build and deploy apps efficiently.
- Designed intuitive dashboards and workflows that visualized complex code-base insights and automated software development pipelines.
- Collaborated with product managers and engineers to create a seamless user experience for managing large-scale legacy code transformations and AI-driven outputs.
- Developed scalable design systems and reusable UI components that maintained consistency across various custom-built software modules for global clients.
- Optimized the user journey for technical personas, ensuring that complex data abstractions and "chain of custody" insights were presented in a clear, actionable manner.

Senior UX/UI Designer (Freelance) | Upwork

Jan 2019 – Present | Global Remote

- **Top-Rated Plus Professional:** Recognized among the top 3% of freelancers worldwide, maintaining a 100% Job Success Score (JSS) across 70+ end-to-end projects.
- **High-Value Delivery:** Successfully delivered \$80K+ in design solutions, accumulating 560+ hours of expert-level execution for international startups and enterprises.
- **Specialized Expertise:** Praised by global clients for designing complex LMS platforms and SaaS products, ensuring seamless web and mobile user journeys.
- **Strategic Communication:** Noted for highly effective communication and a professional approach to feedback, resulting in a 100% client retention rate.
- **Full Product Lifecycle:** Managed diverse workflows including requirement gathering, user research, and scalable design system development for a global clientele.

UX/UI Designer | Valcom Properties LLC.

Apr 2020 – Apr 2022 | Dubai, UAE (Local)

- Designed and optimized the corporate real estate platform, focusing on high-end property listings and seamless user journeys for buyers and tenants.
- Streamlined the communication flow between international leads and internal real estate agents by designing intuitive contact interfaces and lead management features.
- Enhanced user engagement by implementing advanced search filters and interactive map views for villas and luxury apartments, improving the overall browsing experience.
- Developed user-centric features aimed at simplifying the property inquiry process, resulting in a more efficient connection between potential buyers and company representatives.

Education & Professional Development

- **Master of Business Administration (MBA) - Thesis Program**
Istanbul Ticaret University | Istanbul, Turkey (In Progress)
- **Bachelor of Information & Communication Technology**
Palestine Technical College | Deir El-Balah, Palestine | 2014 – 2018

Languages

- **Arabic:** Native / Mother Tongue
- **English:** Full Professional Proficiency / Conversational
